# RACING REPLICA LEATHER SUIT FOR TECH AIR SYSTEM

 **RACING / PERFORMANCE RIDING**  
SIZE: 46-56 EUR

The Racing Replica Suit can be retrofitted with Alpinestars advanced active protection technology – the Tech Air Airbag system – to provide ultimate rider safety. -- Constructed from premium 1.3mm full-grain leather for exceptional abrasion resistance and durability, with multiple-stitched main seams for maximum tear resistance and ultra-vented front panels for unsurpassed cooling while riding. -- Elbow and arms feature a unique, seamless, construction technique and PU external forearm protection for enhanced structural strength and abrasion resistance. -- Alpinestars exclusive, patented, high modulus thermoplastic external shoulder protection combines with a unique external one-piece 90° TPU knee and tibia protection for improved protection and reduced drag. -- A soft grip area on inner surface of the knee/leg protection enhances contact with the bike and race-derived, CE certified elbow, knee and tibia protectors ensure maximum impact dissipation in the event of a fall. -- MotoGP profile, aerodynamically sculpted back-hump promotes airflow within the suit when riding to help keep the rider cool and is designed to accommodate the central control unit for the Tech Air system. -- Alpinestars CE level 2 certified Bionic Race back protector supplied as standard with a secure snap connection. -- Patented 45° leather flex zones for improved fit and complete multi-directional flexibility while riding with additional, upper arm, stretch panels to accommodate airbag inflation. -- Strategically placed stretch Kevlar panels reduce material resistance while enhancing comfort and fit. -- Removable, washable, 100% anti-bacterial inner lining with strategically placed soft foam padding. -- Soft neoprene cuff and collar construction affords a soft touch against the skin for maximum riding comfort. -- YKK® semi auto-lock zippers on the wrist ensure secure closure at all times, with conventional, high quality YKK zippers used throughout the rest of the suit. -- Alpinestars replaceable GP knee sliders.

## ATEM LEATHER SUIT

**RACING / PERFORMANCE RIDING**  
SIZE: 48-60 EUR

CE certified riding garment. The suit fully conforms to CE standard: EN 13595-1 for riding safety. -- CE certified shoulder, elbow, hip, knee and tibia protectors. -- 1.3 mm premium grade leather for high performance impact and abrasion protection. -- Aramidic stretch chest insert to further improve fit and feel. -- Inner cuff and ankle adjustment improves range of fit and comfort. -- Critical displacement perforated panels on upper and lower body for improved ventilation. -- External Alpinestars exclusive Dynamic Friction Shield (DFS) technology shoulder, elbow and knee protectors, race proven in MotoGP and WSBK. -- MotoGP profile, perforated, aero hump for improved aerodynamic and ventilation performance. -- Multiple external perforated leather panels with foam protector inserts. -- Large accordion stretch panels help rider movement and comfort on the bike. -- Aramidic stretch panels on sleeves and crotch areas to further improve fit and feel. -- Removable, multi panel construction, inner liner with and 3D mesh inserts to improve comfort and ventilation. -- Innovative calf expansion gusset improves range of fit and riding comfort. -- Chest pad compartments with PE padding (Alpinestars Bionic chest pads available as accessory upgrade). -- Multiple snap button system to integrate Level 2 CE certified Alpinestars Bionic Back protector. -- Neoprene comfort edge around collar prevents skin chafing.

## TECH HEATED VEST

COLD WEATHER TOURING & COMFORT RIDING - SIZE: S-3XL

Flat panel polymer heat panels in the chest, upper shoulder/neck and lower back, are strategically placed to aid temperature management, giving the most even spread of heat over the largest area. -- Insulated Lycra outer shell with a MESH lining allows heat to pass evenly from the elements and insulate the body. -- Breathable side panels help wick away moisture from the body to keep you warm and dry. -- Self regulating panels remain at a constant temperature to prevent overheating. -- Extended neck collar for superior heat coverage. -- Vest takes 55W powered directly from motorcycle battery by a connection cord from battery to an adapter interface on the jacket using an integrated loom. -- Tech Heated Vest uses new WIO (Wire Integration and Organization) Technology which aids the rider with wire routing on all models of motorcycles. (A special connector is available for BMW motorcycles). -- Can be used in conjunction with Alpinestars Tech Vest Electronic Temperature Regulator (ETR), available separately. Using the ETR with the Tech Heated Vest allows the rider to select from four different heat settings to give a wider range of climate control. -- Vest is machine washable. -- Reflective piping and logos.

**NOTE: THIS VEST IS NOT AN OUTER GARMENT AND MUST ALWAYS BE WORN IN CONJUNCTION WITH A SUITABLE WATER RESISTANT OUTER GARMENT FOR RIDING.**

TECH LAYER - SIZE: OS

Breathable and quick dry materials. -- Mesh panels for ventilation. -- Ergonomic fit from top of head to ear. -- Flatlock seams for better feel and comfort. -- Reflective logo printing.

475 827 10  
BLACK

## TECH NECK WARMER BASELAYER

TECH LAYER - SIZE: OS

Super soft 4 way stretch reversed micro-fleece. -- Seam free collar edge. -- Embroidery logo.

475 8514 10  
BLACK

## RACING ROAD SOCKS

TECH LAYER - SIZE: S/M - L/2XL

Warm and breathable moisture wicking stretch fabric for comfort. -- Full face design with neck and shoulder covering for effective insulation against the elements. -- External waterproof and windproof neck skirt for wind and water protection. -- Flat lock seam for comfort under helmet. -- Open nose panel construction to aid breathing.

470 3111 30  
BLACK RED

## THERMAL TECH SOCKS

TECH LAYER - SIZE: S/M - L/2XL

Warm and breathable moisture wicking knit fabric. -- Nostatex® , silver yarn, sole for wicking moisture away from skin and giving an anti-bacterial, non odour, layer which conducts heat uniformly around the skin surface to reduce hot-spots. -- Ribbed design reduces bunching at the heel and ankle and increases riding comfort. -- Knee length design for ultimate coverage and comfort.

470 349 11  
BLACK GRAY

## NECK WARMER BASELAYER

TECH LAYER - SIZE: OS

Super soft 4 way stretch reversed micro-fleece. -- Inner open mesh. -- Seam free collar edge. -- Embroidery logo.

475 8614 10  
BLACK

## RACING ROAD SHORT SOCKS

TECH LAYER - SIZE: S/M - L/2XL

Constructed using Coolmax which helps keep your feet cool and dry -- Nostatex sole for wicking moisture away from skin -- Ribbed design reduces bunching at the heel and ankle -- Strategically positioned mesh areas for maximum comfort -- Ankle length.

470 3011 30  
RED

## TOURING SUMMER SOCKS

TECH LAYER - SIZE: S/M - L/2XL

Nostatex sole for wicking moisture away from skin. -- Ribbed design reduces bunching at the heel and ankle. -- Strategically positioned mesh areas for maximum comfort. -- Mid calf length.

GLOSSARY

innovative layered construction that provides optimum tactility and high dexterity for a sure grip while remaining soft and flexible.

**PERFORMANCE SHELL** - Designed to provide comfort and durable waterproof protection.

**KEVLAR®** - Used as a reinforcement, this high strength fiber is cut and tear resistant.

**NEOPRENE** - Comfortable and flexible, this water resistant material provides great insulation in cold and damp conditions and excellent wind stopping performance.

**PITTARDS® DIGITAL LEATHER** - Supple and quick drying leather which provides excellent grip in all-weather conditions.

**SCHOELLER® KEPROTEC®** - This stretchable and vented material features Kevlar® reinforced thread for maximum tear and abrasion resistance.

**SUBLIMATED GRAPHICS** - Utilizing a pressure and heat process, this system of design transfer produces fade free graphics even after extensive washing.

**SUPERFABRIC®** - Flexible, ceramic reinforced fabric that is extremely abrasion, puncture and cut resistant making it ideally suited for application on exposed areas such as knees and elbows.

**TAPED SEAMS** - Seam tape is applied along the stitch line of the garment, which prevents water intrusion at these small but critical areas.

**TASLAN** - Durable and water repelling nylon fabric.

**TEFLON®** - Water repellent treatment makes the garments remain lightweight under sustained rain. This coating enhances the garment's resistance against chemicals, atmospheric agents and UV rays, thus helping to increase the life of the product.

**THINSULATE®** - Lightweight, breathable, moisture resistant and quick drying, Thinsulate® provides superior insulation for cold weather riding.

**PRIMALOFT®** - A lightweight, breathable insulation that repels moisture to offer superior performance for cold-weather riding.

**PU COATING** - A thin layer of film applied to the backside of the fabric to give strength, structural integrity and water resistance.

**PU** - Polyurethane. Polymer containing urethane used in plastics, rubber, foam, etc.

**PE** - Polyethylene. Thermoplastic material composed of polymers of ethilene. It is light, strong, water resistant and flexible at low temperatures.

**WINDSTOPPER®** - Laminated membrane offering total windproof performance and maximum breathability for complete comfort.

**4-IN-1 SYSTEM** - Interchangeable system incorporating the removable, waterproof and breathable Drystar® liner and removable thermal liner. The 4-in-1 system enables the jacket to be used with the Drystar® and thermal liners together; the Drystar® or thermal liner by themselves; or without either liner, allowing the jacket to be configured in 4 different ways to suit any climatic condition.

**ARMACOR™ PRODUCT TECHNOLOGY** it's a patented lattice structure with an integrated Kevlar® core. This technology offers extreme tear and abrasion resistance yet lighter weight. Incorporated into a GORE-TEX® Pro Shell motorcycling jacket, it will protect enthusiastic motorcyclists in the event of a fall. This means safety and enhanced comfort – in ALL-WEATHER conditions.

**CE CERTIFICATION** - Protection and protectors that are CE certified have met the strict performance standards and requirements of the European Union.

**CLARINO®** - This highly durable material provides great feel for the palm. Machine washable, Clarino® remains soft and supple even after repeated exposure to water.

**CLIMATE CONTROL SYSTEM** - System of zippered air intakes and exhausts that allow precise control of airflow while riding for superior body temperature regulation.

**COOLMAX®** - This unique material “wicks” moisture away from the skin and quickly transfers it to the outer surface to speed up evaporation.

**CORDURA®** - This textured nylon is durable, lightweight and abrasion resistant

**DENIER** - Denier is a measurement which denotes the thickness and the diameter of a fiber material.

**DNSTM** - Fabric treatment technology to give a high degree of water repellent and breathable performance.

**DRYSTAR®** - Alpinestars' waterproof and breathable membrane for all-weather comfort and performance.

**E.V.A.** - This comfortable and lightweight material provides superior shock absorption and impact protection.

**GORE-TEX®** - This world renowned waterproof and breathable membrane features pores that are smaller than water to keep rain out, but larger than water vapor, allowing perspiration to escape.

**GORE-TEX® PRO SHELL** - It is the optimum solution for outdoor professionals and serious enthusiasts, who need to face extreme weather and tough conditions. Made with the most rugged, most breathable, durably waterproof and windproof fabrics.

**GORE-TEX® PACLITE® SHELL** - Combines extreme breathability and durable wind and waterproofness with minimum weight and pack volume.

**GORE-TEX® SOFT SHELL** - Constructed with soft and warm fabrics. GORE-TEX® Soft Shells are designed for reduced layering and improved freedom of movement in colder conditions.

**GORE-TEX® X-TRAFIT™** - X-TRAFIT™ product technology for gloves, feature an
