

INSPIRED BY THE VIGOUR OF THE FLEDGLING MOTOCROSS SCENE IN THE EARLY SIXTIES, ALPINESTARS FOUNDER SANTE MAZZAROLO TURNED HIS TALENT IN LEATHER MAKING TO WORK ON THE CREATION OF INNOVATIVE, HIGH-PERFORMANCE, OFF-ROAD BOOTS.

AN UNMATCHED PASSION AND PRECISION HAS FORGED ALPINESTARS' REPUTATION AS THE CREATOR OF THE FINEST OFF-ROAD GEAR, WITH A COMPLETE MOTOCROSS AND ENDURO COLLECTION THAT IS THE BENCHMARK FOR TECHNICAL COMPETENCE WITHIN THE DIRT RIDING COMMUNITY.

THIS RANGE OF PREMIUM PRODUCTS INCLUDES A COMPLETE LINE OF APPAREL, PROTECTION AND TECHNICAL UNDERWEAR THAT OFFER CLASS-LEADING SAFETY AND PERFORMANCE TO RIDERS OF ALL LEVELS – FROM THE TOP SUPERCROSS AND MOTOCROSS RIDERS IN THE WORLD TO THE YOUNG BEGINNER.

FROM ESTABLISHED ICONS LIKE THE TECH 8 BOOT TO THE LATEST TECHNICAL INNOVATIONS OF THE FLUID TECH KNEE BRACE AND BIONIC NECK SUPPORT, ALPINESTARS CONTINUES TO PUSH THE BOUNDARIES OF DESIGN AND MATERIAL TECHNOLOGY IN ITS RELENTLESS PURSUIT OF SAFETY AND PERFORMANCE.

ONE GOAL. ONE VISION.

TECHSTAR JERSEY *Motocross / Off-Road*

376 1014 *Sizes S-2XL*

- Fade resistant sublimated graphics.
- Pre-curved sleeves.
- Fitted wrist cuffs with stretch inserts.
- Cut longer in back to help fit and compatibility with Alpinestars MX pants.
- Bionic Neck Support grip printing to aid stability.
- 3D injection molded rubber logos and details.
- Hidden front zipper with snap front closure.

TECHSTAR PANTS *Motocross / Off-Road*

372 1014 *Sizes 28-40*

- Multi-panel poly-fabric construction is PU coated for additional strength and durability.
- Strategically die-cut perforated panels and mesh inserts for increase ventilation.
- Exclusive patented "VECTOR" back panel design provides maximum comfort and flexibility.
- Patented "BABEL" knee design features a pre-bent, reinforced and padded 3D knee construction with ballistic Nylon for added strength hidden spandex stretch expansion gusset.
- Rip-stop heavy nylon reinforcement on the seat area provides abrasion resistance.
- Genuine 1.3 mm leather reinforced inner leg panels for heat and abrasion resistance.
- Lightweight and ventilated mesh liner with stretch panel insert for better fit.
- Inner pocket for key storage.
- Dual waist adjustment pull tabs.

TECHSTAR GLOVE *Motocross / Off-Road*

356 1014 *Sizes S-2XL*

- Vented TPR inserts on finger with a split-finger construction and Lycra gussets on first 2 fingers for ventilation and improved flexibility.
- Highly durable, vented Airmesh upper with 3D TPR moulded vent on back of hand for added air circulation.
- Glove constructed in a pre-curved shape with Airprene knuckle flex points to reduce fatigue.
- Finger fourchettes covered with seamless one-piece Lycra to avoid irritation.
- Landing zone reinforced with anti-vibration foam for absorption on and off the bike.
- Silicon grips on fingers for improved grip and lever control.
- TPR wrist adjustment for customized fit.
- Reinforced suede thumb area increases durability.

CHARGER JERSEY *Motocross / Off-Road*

376 1214 Sizes S-2XL **377 1214** YOUTH Sizes S-XL

YOUTH SIZES : LIME/GREEN/CYAN & ORANGE/RED/YELLOW ONLY

- Fade resistant sublimated graphics.
- Pre-curved sleeves.
- Fitted wrist cuffs with stretch inserts.
- Cut longer in back to help fit and compatibility with Alpinestars MX pants.

CHARGER PANTS *Motocross / Off-Road*

372 1214 Sizes 28-40 **374 1214** YOUTH Sizes 22-28

YOUTH SIZES : LIME/GREEN/CYAN & ORANGE/RED/YELLOW ONLY

- Multi-panel poly-fabric construction is PU coated for additional strength and durability.
- Exclusive patented "VECTOR" back panel design provides maximum comfort and flexibility.
- Knee design features a pre-bent, reinforced and padded 3D knee construction with ballistic Nylon for added strength hidden spandex stretch expansion gusset.
- Rip-stop heavy nylon reinforcement on the seat area provides abrasion resistance.
- Genuine 1.3 mm leather reinforced inner leg panels for heat and abrasion resistance.
- Lightweight and ventilated mesh liner with stretch panel insert for better fit.
- Inner pocket for key storage.
- 3D injection molded rubber logos and details.
- Front zipper with snap front closure.

CHARGER GLOVE *Motocross / Off-Road*

356 1214 Sizes S-2XL **354 1214** YOUTH Sizes 3XS-L

YOUTH SIZES : LIME/GREEN/CYAN & ORANGE/RED/YELLOW

- Innovative multi-fabric construction for optimal combination of weight, durability and protection.
- Reinforced suede palm gives extra abrasion protection where needed most.
- Pre-curved finger construction reduces fatigue and improves comfort while riding.
- Lycra gussets on first 2 fingers and thumb improve finger flexibility and durability.
- Thick silicone grip on first 2 fingers for improved grip on the bike's controls.
- Lycra insert on palm to improve fit and comfort.
- Protected wrist adjustment for customized fit.
- Flexible finger guards.

RACER JERSEY *Motocross / Off-Road*

376 1514 *Sizes S-2XL* **377 1514** *YOUTH Sizes S-XL*

YOUTH SIZES : BLUE/BLACK, GRAY/BLACK & ORANGE/BLACK

Fade resistant sublimated graphics design.

Fitted wrist cuffs.

Cut longer in back to improve fit with Alpinestars MX pants

RACER PANTS *Motocross / Off-Road*

372 1514 *Sizes 28-40* **374 1514** *YOUTH Sizes 22-28*

YOUTH SIZES : BLUE/BLACK, GRAY/BLACK & ORANGE/BLACK

Rear stretch panel insert provides increased comfort and flexibility.

Pre-bent leg, padded 3D knee construction with hidden expansion gusset offers improved fit and flexibility while riding.

Heavy poly-fabric reinforcement on the seat area and inner leg panels provides superior abrasion resistance.

Lightweight and ventilated mesh liner with stretch panel inserts for better fit.

Inner pocket for key storage.

3D injection molded rubber logos.

Front zipper with D-ring fit adjustment.

RACER GLOVE *Motocross / Off-Road*

356 1514 *Sizes S-3XL* **354 1514** *YOUTH Sizes 3XS-L*

YOUTH SIZES : BLUE/BLACK, GRAY/BLACK & ORANGE/BLACK

Designed for easy fit and greater comfort while riding.

Lightweight Spandex upper construction gives excellent flexibility.

Reinforced thumb design increases durability.

Protected wrist adjustment for safe, customized fit.

Silicone grips on first 2 fingers improves riding control.

Raised pull tab for better fit and easier entry.

Pre-curved finger construction reduces fatigue and improves comfort.

ATLAS GLOVE

Motocross / Enduro

356 209 *Sizes S-3XL*

PU knuckle and finger sliders for superior impact and abrasion resistance.

Wrap around fingertip palm construction for durability.

Mesh insert on fingers for breathability.

Leather little finger for abrasion resistance.

Gusset construction provides freedom of finger movement and addition ventilation without compromising safety.

Ergonomic TPR wrist closure system.

Lycra thumb insert provides a greater range of motion.

Side wrist foam padding. --Clarino® palm with reinforcements for improved grip.

Tab located at base of palm to aid access.

Clarino® thumb reinforcement and foam padding.

VENTURE JACKET for BNS *Enduro*

370 3012 *Sizes S-3XL*

Technical off-road and enduro performance riding jacket.
Durable Nylon and Polyester fabric construction provides excellent abrasion resistance.
Multiple stitched main seam construction for superior resistance against tearing.
Pre-bent multi-panel sleeve construction affords an excellent fit in the riding position.
Reinforced and 3D elbow construction with padded reinforcements for greater impact protection.
Removable collar designed to accommodate the Bionic Neck Support and most neck brace systems on the market.
Detachable sleeves allow the jacket to be worn as a vest.
Front zippered air intakes and rear exhaust vents for highly effective climate control.
4 front pockets and 1 large pocket on the back.
Convenient three-section front flap allows the jacket to be configured for greater airflow
Flip out pass holder.
Internal hydration pack compartment on the back with integrated pipe hold system.
D-ring waist Velcro adjustment and Velcro wrist closure ensure a snug, tailored fit.
Neoprene borders on cuffs for added comfort.

CREST ENDURO WATERPROOF JACKET FOR BNS *Enduro*

370 2012 *Sizes S-3XL*

Optimized for use with the Crest WP Pants.
Waterproof outer shell features taped seams to provide an effective barrier against the elements.
Elongated profile offers cover to the hip area.
Zippered air intakes for highly effective climate control.
Pre-bent multi-panel sleeve construction for superior fit in the riding position.
Two-way, waterproof zipper main closure.
External welded pockets with waterproof zippers.
Soft microfiber collar enhances comfort while reducing chafing.
Reinforced elbow construction.
Integrated flat Velcro wrist closure.
Internal waist shock cord offers an adjustable fit.
Smooth inner construction enables seamless integration with Bionic Protection Jackets.

GP PRO LEATHER GLOVE

Supermoto

355 6713 *Sizes S-3XL*

Race proven TPU injected knuckle protection system to absorb and dissipate impact.

Molded knuckle protection air intakes and exhaust ports for improved hand ventilation.

Injected TPU palm and finger sliders for superior impact and abrasion resistance.

TPU injected adjustable cuff panel for superior impact and abrasion resistance with high grip Velcro closure for security.

Secure and precise Velcro wrist adjustable closure strap.

Internal Kevlar® top surface hand and thumb lining.

Internal K-Tech Kevlar® little finger lining for superior impact and abrasion resistance.

Alpinestars patented finger-bridge prevents finger separation and stops protection twisting around the fourth finger in the event of a slide.

3D anatomical design with accordion leather stretch inserts on index, middle and ring fingers for unobtrusive flexibility.

TPR back hand vented impact protector.

Palm pad panel combined into palm/thumb/little finger reinforcement.

Large twin thumb accordion stretch insert for superior fit, feeling and flexibility.

Perforated leather top surface panel and ventilated finger sidewalls keep the hands cool.

External finger and palm seams for a close fit and superior feel.

BNS TECH CARBON NECK SUPPORT *Protection*

650 0014 *Sizes XS/M - L/XL*

The BNS Tech is constructed from an advanced, high-performance carbon polymer compound to offer:

Structural integrity and frame strength against heavy impact energies during a crash.

Ultra-lightweight performance and comfort while riding.

Resilience to low temperatures, below 0°C.

The BNS Tech is designed to provide a customizable, secure and personalized fit with:

SAS (Size Adapter System) for a versatile fitment in size ranges XS-M and L-XL.

Lycra-laminated foam padding kits: adaptable and interchangeable EVA foam pads allow compatibility with body protection systems.

Strap System: Light strap worn over or under the jersey.

735 gr.

The BNS Tech incorporates a bio-organic engineering design for superb ergonomics:

Rear stabilizer promotes PFR (Progressive Force Relief) and dissipates energy loads by transmitting them across the back and shoulders and away from spine (thoracic vertebrae), and is connected to the frames via pivot key.

Frame construction promotes improved contact with helmet during impact – including rear support edge that fits closer to the body, extra width to account for different helmet sizes and raised chest to reduce hyper-flexion.

Innovative quick-release locking system for rapid and efficient fitting/removal offers secure and convenient closure.

Compressed EVA foam compound padding to distribute the impact force over the widest area, yet remain lightweight.

THE BNS TO THE RIDER.

FLUID TECH CARBON KNEE BRACE *Protection*

LEFT 650 0414 / RIGHT 650 0314 *Sizes S/M/L - XL/2XL*

The Fluid Tech is CE Certified CE 1621-1 K type B, lightweight, strong and is constructed from an advanced, high-performance carbon polymer compound to offer:

Optimized structural integrity and frame strength: the Fluid Tech features a lightweight 'exoskeleton', reduced material construction design.

Highly ventilated: Channeled padding and mesh zones for optimized ventilation and airflow.

Crucial weight-saving: the Fluid Tech is 40 per cent lighter than current B2 brace versions.

Extreme temperature resilience: Fluid Tech performs at temperatures as low as -20°C (-4°F).

The Fluid Tech is designed to provide a highly customizable, personalized and stable fit:

SAS (size adapter system): provides adjustable and versatile brace fitment in size ranges S-M-L and XL-2XL.

Innovative spacer system: Brace supplied with leg-size adjustment spacers (1mm, 2mm and 3mm) on either side of hinge, plus two pairs of flexible, anatomically optimized 'ergo-fit' spacers (6mm and 9mm) for improved directional articulation performance.

Knee pivot system: New double-pivoting hinge system incorporating tool-free, fast, easily exchangeable extension stops (0, 5, 10, 15, 20 degrees) to prevent hyper-extension injuries.

The Fluid Tech incorporates a bio-organic engineering design for superb anatomical performance:

Innovative patella/knee cup protection system: Ergonomically sculptured and ventilated knee cup system constructed from semi-rigid TPU backed by shock-absorbing PU memory foam.

Correct position of knee cup is secured accurately in place with top and bottom elastic straps, allowing multi-directional freedom of movement.

Additional protection in strongly angled positions afforded by upper and lower patella cuffs.

Innovative, dual X-strap system promotes secure fitment of brace in all riding positions and includes combined buckle and Velcro closures for rapid and easy mounting.

650 1314 *Sizes S/M/L - XL/2XL*

The Fluid Pro is CE Certified CE 1621-1 K type B, lightweight, strong and is constructed from a high-performance glass fiber compound to offer:

Optimized structural integrity and frame strength: the Fluid Pro features a lightweight 'exoskeleton', reduced material construction design.

Highly ventilated: Channeled padding and mesh zones for optimized ventilation and airflow.

Crucial weight-saving: the Fluid Pro is 25 per cent lighter than current B2 brace versions.

Extreme temperature resilience: Fluid Pro performs at temperatures as low as -20°C (-4°F).

The Fluid Pro is designed to provide a highly customizable, personalized and stable fit:

SAS (size adapter system): provides adjustable and versatile brace fitment in size ranges S-M-L and XL-2XL.

Innovative spacer system: Brace supplied with leg-size adjustment spacers (1mm, 2mm and 3mm) on either side of hinge, plus two pairs of flexible, anatomically optimized 'ergo-fit' spacers (6mm and 9mm) for improved directional articulation performance.

BIONIC TECH JACKET *Protection*

650 6514 *Sizes S - 2XL*

Technical, elastane stretch mesh main construction is highly breathable and retains shape. Strategically positioned cordura panels for durability and abrasion resistance.

All components engineered for a reduced material construction garment that is extremely lightweight, slim and highly ventilated. --Highly versatile, modular and customizable fit for different forms of off-road riding is afforded by: removable comfort padding; v-strap kidney belt; lace sleeve closures; removable sleeves; full compatibility with bns protection.

Innovative, ce certified chest protector backed by technical, eva shock absorbing material which molds to rider's body shape.

Premium, ce certified shoulder and elbow/forearm protectors systems feature: thermoformed 3d poly padding for comfort and shock absorption; dual protector cup for excellent flexibility and range of movement; protector cups are asymmetric to offer extended protection surfaces, which are contoured to ensure a close fit to keep the protection located and reduce rotation.

Detachable back protector can be removed to further enhance ventilation capabilities or adapted to accommodate bns.

Protector panels are constructed from a robust k-resin® polymer performance blend for optimized flexibility and excellent weight saving properties. Shells are vented and channeled to improve airflow and prevent heat build-up.

Innovative cross lacing system (cls) for securing sleeves features elastic cord and breathable microfibers to give lightweight and highly customizable fit. CIs significantly reduces risk of arm pump.

Convenient pull tab loops on shoulders for secure fitment of alpinestars bns.

Elastic kidney with tpr belt system for customized, secure fit.

Removable (eva) comfort padding on shoulders, chest and kidney area.

Premium, auto-locking ykk zips for main frontal closure and on detachable sleeves and ensures security.

Silicone printed logos throughout to help keep jersey in place.

123
BLACK/WHITE/RED

BIONIC PRO JACKET *Protection*

650 6614 *Sizes S - 2XL*

Slim-fitting, highly breathable elastane stretch mesh main construction incorporating extensive Cordura paneling for durability and abrasion resistance.

Reduced material construction on underarms and arms for ventilation and weight saving.

Integrated chest and back protection panels are: constructed from a robust K-RESIN® polymer blend for optimized flexibility and excellent weight saving; over-injected and placed under Cordura textile finish - stitch mounted onto jacket for styling, stability and durability; reinforced by thermoformed 3D poly padding for comfort and shock absorption.

Slim-lined CE level protectors on shoulder and elbows offer excellent levels of resistance abrasion and shock.

Removable comfort padding chest allows for integration of Alpineastars' BNS.

Premium, auto-locking YKK zips utilized for main frontal closure, plus convenient zip garage.

Silicone printed logos throughout to help keep jersey in place.

Convenient pull tab loops on shoulders for secure fitment of Alpinestars BNS.

Thermoformed padding on kidney areas for comfort and secure fit.

A8 PROTECTION VEST

670 0012 *Sizes S/M - M/2XL - 2XL/4XL*

ENGINEERED FOR BNS

The combination of advanced design methods and high-tech materials ensures that Alpinestars A-8 Body Armour offers unrivalled levels of safety and performance to the dedicated Motocross and Enduro rider.

This new, innovative armour system attains the highest level of protection in terms of CE standards (prEN 1621-2 level 2 and EN 14021), yet grants the rider exceptional freedom of movement.

This highly-developed protector can be worn as an under-jersey without shoulder cups or as an over-jersey with shoulder cups and utilizes semi-rigid plastics to enable a superior fit against the body. The A-8's design allows the protectors to follow the body's motion perfectly, ensuring the armour is always in the optimal position to provide protection when it's needed.

The large, lateral protectors are unique for such an armour system and wrap around the body effortlessly, while a newly developed buckle system allows the fit to be precisely adjusted.

Strategically placed intake and exhaust events combine with extensive perforated panels to enhance airflow, resulting in greater riding comfort.

The A-8 has also been designed to integrate with the Alpinestars Bionic Neck Support to offer riders a complete, high performance protection system for the upper body.

BIONIC BACK PROTECTOR

650 407 *Sizes S - XL*

DFD (Dynamic Force Dispersion) Technology means this protector is reduced in thickness and in weight: 15mm thinner and 130g lighter than previous models.

CE Level 2 protection means this protector offers double the impact performance of a CE Level 1 protector. CE Level 2 Impact performance (under 9kN transmitted force) in accordance with EN 1621-2.

Ergonomic 5 plate construction contours to the natural curve of the back. Plates lock to lessen overextension of the back.

Construction allows excellent shock absorption, even in repeated impacts, but allows a thin, light, and substantially breathable core.

The airflow has been designed that even if the protector is pressed hard against your body, air will still flow through from the top to the bottom.

Adjustable shoulder straps.

Wide waist belt with thermo-formed protection at the sides.

BIONIC AIR BACK PROTECTOR

650 4011 *Sizes XS - XL*

CE Certified Level 1 to the latest back protector standard revision (prEN 1621-2:2010) allowing a slimmer, more ergonomic design.

The new dual density cell structure technology combines two different materials to offer lightweight impact protection with exceptional breathability and comfort.

Ergonomic protection plates contour to the natural curve of the back ensuring optimum fit while riding. Protection plates have special lateral "wings" that flex to fit the movement of the shoulder blades and wrap around the kidneys when in the riding position.

Breathable inner mesh.

Adjustable and detachable elastic shoulder straps via a snap fit system to allow a more comfortable use of the protector under leather suits.

Wide belt featuring a dual Velcro closure system.

Conceived as a modular system, enabling a wide size range.

BIONIC SX KNEE PROTECTOR

650 6312 *Sizes XS/S - M/L/XL*

Super lightweight knee guard that provides exceptional impact protection.
 Extensive protection zones fulfills CE standard EN 1621-1 (K+L Type B)
 Constructed with highly breathable materials in an efficient ventilation configuration for superior airflow.
 Asymmetrical, anatomic design and intelligent panel construction allows optimal movement and ensures a correct fit for both the left & right protector.
 Kneecup features large lateral extensions for maximum protection coverage.
 Complete TPU protector coverage over the knee, shin & lower thigh.
 Engineered to easily fit with riding boots, with a removable lower strap.
 Inner medial kneecup features a sleek design for reduced material thickness between the knee and bike for greater control while riding.
 Guard is backed with highly perforated, PU memory foam to keep you cool & comfortableSlim, easy to adjust straps ensure a precise fit.

MX COOLING VEST *Tech Layer*

475 5511 *Sizes S - 3XL*

- The evaporative MX cooling vest is designed to cool the wearer during outdoor sporting activities in hot weather conditions.
- This is achieved through the garment's water management system, which uses an exclusive polymer embedded material that has been specifically designed to absorb and slowly release water within the multi-layered fabric, significantly enhancing the body's ability to stay cool.
- How to use: Simply submerge the garment in water for 5-10 minutes, and then remove excess water by gently squeezing the vest before use.
- The vest will remain hydrated for several hours and can be rehydrated as needed.

TECH 10 *Motocross / Off-Road*

201 0014 *Sizes 7-14 US / 40.5-49.5 EUR*

Lightweight upper combines full-grain leather with lightweight microfiber and impact and abrasion resistant TPU shell.

Innovative, evolutionary TPU shin-plate construction for greater range of fitment features a reinforced Velcro closure for comfortable, highly customized closure.

Shin zone incorporates TPU blade system engineered to prevent frontal hyperextension and provides greater flex control.

Evolutionary design for lateral flex zone provides front and rear flexion support and helps prevents torsion.

Medial-facing panel constructed from TPU with rubber insert for maximum grip contact with bike and improved heat and abrasion resistance.

Contoured TPU calf protector plate offers impact resistance.

Innovative TPU rear blade system protects heel and features a rear hyperextension guard.

Extensive TPU protection on toes, foot, heel, ankle, calf and shin with extra hard compounds on the toe-box, heel and Achilles tendon.

New closure system includes polymer buckles plus aluminium frame with innovative self-aligning, quick release closures for customized secure fitment.

TPU lower shell is reinforced with metal shank and includes toe reinforcement for impact and abrasion resistance.

All the buckles are replaceable.

Soft microfiber gaiter helps seal out excessive water and dirt entry.

Poly fabric lining with 3D open cell foam incorporates anti-sliding suede reinforcement on heel area.

Exclusive dual compound sole is seamlessly integrated to the multi-density foot base structure with built-in support; the sole superior durability and grip.

The Tech 10 boot is CE certified.

ANKLE BRACE SYSTEM

Innovative biomechanical inner brace features torsion bars to control ankle and leg rotation, while allowing freedom of movement.

Shock absorbing padding on the heel and ankles plus an ultra thin and flexible forefoot area for increased sensitivity and control.

Removable anatomic footbed.

ANKLE BRACE SYSTEM

For the development team working on the Tech 10, several key objectives were apparent at the outset and refinements to this revolutionary concept have been made ever since. The first objective was to improve the performance of the boot's safety structure over existing technologies. More traditional boots have ankle protection and support built inside their construction and to improve on the concept and bring the protection closer to the body, a new inner brace was developed. Having discarded the use of a single hinge boot system, (a concept Alpinestars had developed and patented designs for in the mid-80's, but never adopted because of excessive stress put on the knee) a revolutionary solution was developed. Using some of the lessons learned in the company's road racing program, where the Alpinestars Supertech boot leads the way with its unique torsion bar ankle support, the new MX brace features a patented double-hinged assembly. However, the Tech 10 brace shares no common components with the Supertech version, having been designed specifically to cope with the particular demands of MX riding and has already been through several design modifications to yet further improve performance.

The double hinge torsion bars allow upper and lower protective structures in the brace to protect the ankle and heel, while giving complete freedom, flexibility and feel to the rider by following the natural movements of the foot and ankle, with no constraint until the point of over extension. The system also minimizes the chances of sprains and twists, while also protecting the ankle from lateral impacts. It is comfortable to wear, extremely strong, stable and lightweight while allowing ventilation around the foot.

TECH 8 RS *Motocross / Off-Road*

201 1013 *Sizes 5-15 US / 38-51 EUR*

Upper constructed from a combination of full grain leather and innovative and light microfiber that is flexible and abrasion resistant.

INTERNAL ANKLE
SLEEVE

Alpinestars inner ankle sleeve is constructed from leather with 3D mesh panels and incorporates adjustable shock absorbing gel inserts on the ankles and a removable anatomic footbed for enhanced comfort, fit and protection on the ankle and lower leg.

Alpinestars exclusive high grip, dual density rubber outsole includes footpeg area which is reinforced with hard polymer compound for durability and comfort. The outsole is fully replaceable.

Reinforced lateral flex zone above outward facing ankle helps prevent torsion.

Contoured shin plate injected with high modulus polymer for superior impact and abrasion resistance is perforated for ventilation.

Contoured calf protector plate is injected with high modulus polymer for impact resistance.

Extended, internal protection plates constructed from injected polymer to

guard the ankle and lower foot as well as the toe box area.

Advanced closure system features strong techno-polymer buckles for easy adjustability with a precise, secure and streamlined fit.

Top and bottom reverse closure design provides superior impact security and improved fit.

Low profile toe for improved control and sensitiveness in the shift area. Full length, sculpted rubber panel on the inner side of the boot gives superb grip against the bike and is insulated with aluminum foil for improved heat resistance.

Instep and Achilles flex zones for superior comfort, control and support.

Replaceable kick starter protection insert located on the right boot. Stamped steel sole and heel guard.

Soft, polymer gaiter provides effective seal around the top of the boot, preventing excessive water and dirt entry.

Breathable 3D tech mesh lining reduces heat buildup and improves comfort.

Contoured tempered steel shank is over injected inside the mid sole assembly for rider safety and support.

The TECH 8 RS Boot is CE certified.

TECH 6S *Motocross / Off-Road*

201 506 *Sizes 2-8 US YOUTH / 34-42 EUR*

Tech 6S is specifically designed and sized for junior riders.

Contoured shin plate protector is injected with high modulus TPU for a high level of impact and abrasion resistance.

Extended inside plate is injected with medium hard TPU guarding the side and toe box area and features a soft TPU insert for controlling grip.

The inner side of the boot is specifically designed for control and features thick and wide stamped suede designed for excellent contact and grip against the bike, whilst guarding against heat.

Wide calf protector plate is injected with TPU for high impact resistance.

Injected external TPU heel protector guards the outer ankle and features a shock-absorbing insert on the back of the boot.

Mesh internal lining is laminated with open cell foam for improved air circulation.

High density contoured padding provides shock absorption for the heel and ankle areas.

Removable anatomic foot bed.

Optimal back and forth flexibility.

3-stage instep flex zone for maximum comfort, control and support.

Coated Leather upper.

Exclusive rubber outsole design.

Closure structure features three, low profile Aluminum buckles with memory, self-alignment, micro adjustment and a quick release/locking system. Top and bottom reverse closure design provides superior impact avoidance and optimal fit.

Increased flexibility at the ball of the foot for improved braking and shifting.

Soft TPU gaiter.
